Sonel MIC-10

Insulation resistance measuring device

Promotional Price
410,-*

- **Measuring range up to 10 GΩ**
Ideal for precise insulation resistance measurements
- **Compact dimensions, ergonomic housing**
Fits comfortably in your hand – for comfortable working
- **Versatile**
 - Electrical installations in single-family homes and apartment buildings
 - Public institutions
 - Workshops and commercial enterprises
- **Reliable measurement results**
High accuracy and stable values
- **Essential for professionals**
A must-have for electricians and service technicians

Sonel PVM 1530

Measuring device for photovoltaic systems up to 1500 V

- **Versatile measuring functions**
Records all relevant parameters for testing and analysis
- **Intuitive operation via touchscreen**
Quick navigation through all functions
- **Large, colour-intensive screen**
 - Excellent readability in direct sunlight
 - Strong backlighting for any environment
- **Efficient documentation**
 - Extensive structure memory for organised storage
 - Saves time in post-processing and reporting
- **Robust, practical design**
Designed for demanding outdoor conditions

Promotional Price
5.965,-*

GMW DSP II

Progressive two-phase voltage tester

- **Practical one-handed operation**
Compact construction with ergonomic design
- **Non-contact measurements**
No direct finger contact – for greater protection against electric shocks
- **Wide range of applications in electrical engineering**
 - AC/DC voltage measurement
 - Resistance and continuity testing
- **High safety rating**
 - Safety rating CAT IV 1000 V
 - For measurements on electric vehicles and photovoltaic systems
- **Accurate measurement results**
For reliable system diagnostics

Promotional Price
69,95*

Sonel MZC 320-S

Short-circuit loop impedance tester

- **Measurement of very small loop impedances**
(from 0.1 mΩ) with high current (up to 300 A)
- **Measurements with 24 A at 230 V, max. 37 A at 690 V**
with a resolution of 0.01 Ω
- **Short-circuit current calculation with voltage type detection**
- **Measurement in short-circuit circuit, L-L, L-PE, L-N**
- **Data transfer via USB and Bluetooth**
- **Frequency measurement 45.0...65.0 Hz.**
- **Battery supply**

Promotional Price
2.105,-*

Sonel MPI 540

Multifunction installation tester
incl. Sonel Report Plus software (bundle)

- **Large touchscreen display (7")**
Exceptional ergonomics and ease of use
- **Removable memory card**
Easy expansion of storage capacity
- **Li-ion battery**
Work more efficiently thanks to longer runtime
- **Three-phase network data logger**
For advanced network quality analysis
- **Real-time display of network parameters**
Immediate assessment of the test item
- **Measuring earthing and protection against electric shock**
Everything with one measuring device

Promotional Price
2.618,-*

PAT 2E

Mobile electrical safety measuring device
incl. PAT Analiza software (bundle)

- **Compact and mobile**
 - Small dimensions and low weight
 - Specially designed carrying case for device and accessories
- **Automated measurement functions**
 - Fully automatic measurement of electrical equipment, IEC cables and extension cables (also with PRCD)
 - All tests can be run by pressing the START button
- **Customisable configuration**
Measuring device can be individually adapted to user requirements
- **Wireless communication**
 - Wireless connection to the printer for flexible use
 - No cable clutter when documenting

Promotional Price
779,-*

*Offer valid until December 31, 2025; plus VAT
